Easter Bouquet in Check Look

Instructions No. 161

A quick handicraft idea with guaranteed success, which is also great as a souvenir.
The Modelling clay "Ultra-Light", VBS Hobby Color paint and some aluminium wire - that's almost everything you need for these pretty pendants.

Our handicraft instructions can tell you exactly how to create the decoration idea here in the download.

Modelling motif shapes
First transfer the templates to cardboard and cut them out. The Modelling clay is rolled out between two layers of durable baking foil approx. 5 mm thick. Glue the cardboard templates on, first lightly draw the contours with a scalpel, then cut out exactly on the contour. Now use a pricker to punch holes for the wire suspensions in the modelled moulds. Smooth both silks of the motifs with some water, then let the Modelling clay dry completely.

Painting shapes & hanging wire
The rabbits are presented in a colour mixture of Brown and Orange, the eggs are primed with colours Buttercup, May Green and Azure Blue . After the paint has dried, all figures are "brushed" with white Handicraft paint , i.e. diluted white paint is carefully wiped off with a sponge. Now paint the check patterns with a fine brush, cut the aluminium wire, fix it in the holes with super glue and bend it into the desired shape after drying.
