

"Elch"- Kranz Merry-X-Mas

Instructions No. 895

This Christmas wreath is not only at the door a real eye-catcher. Completely in the hip country house style it welcomes you and your loved ones from far away.

It's that simple:

Transfer the lettering with the carbon paper to the deco plate. Work it out with the branding iron and then seal the wood with Clear varnish. After drying, place the deco plate in the wreath and fix it with hot glue.

Wrap both jute tapes around the wreath and fix the ends right and left at the deco plate. Tie a loop on one side and knot a hanger from Jute ribbon to the wreath.

Now decorate the Fir in the wreath and glue the snowflakes around it.

Now glue the deco figure in the middle of the deco plate and use Spatula to paint the deco snow around the figure and a little bit on the Fir .

Let everything dry well before you hang up the wreath!
