Greeting cards in natural look

Instructions No. 2444

Difficulty: Beginner

Working time: 2 Hours

These greeting cards are designed with little effort. They are made with great stamp designs and with dried flowers on kraft paper greeting cards. With their natural look, they are a very special basis for your personal messages to friends and acquaintances.

The cards get a special optical effect by using transparent paper.

In the first step, stamp on tracing paper the dried flowers motifs and the stamp motif "glass bell". Paint small flowers and grasses on the white cardstock. When doing this, make sure that your flower motif does not overlap the stamp motif for the cards with the glass bell.
Plan your card arrangement, cut the white cardstock and tracing paper to a size that fits for it, and then glue the papers on.
Add small accents to your cards with satin ribbon and small miniature dried flower bouquets, secure everything

with craft glue.

Use these natural look greeting cards for very personal messages. These can be written on white paper. Especially noble look your messages, if you stick them afterwards on transparent paper.

Must Have

Maxi stamp "Glass bell"

Motif size: 10.5 cm
Material: Wood, Plastic

6,99 €
