Engraving terracotta pots

Instructions No. 1941

Difficulty: Beginner

Working time: 1 hour

Spring is here, some sunrays can be seen and the first early bloomers show their splendour. High time to get the garden in shape. How about colourful terracotta pots with matching engravings to whet your appetite for the coming garden season?

That's how it's done:

Download the free **motif template** and print it out. Transfer it **to** the pots using **graphite paper**. Of course you can also transfer a motif of your choice to the terracotta pot

Use the **engraving tool** to slowly follow the pre-drawn lines. Once you have drawn all the lines, you can carefully blow away the dust and, if necessary, drive over the lines again

Finally, you can paint the upper edges with colour. How about for example with a gaudy **Neon paint**?
