

Windlicht-Tontöpfe mit Blattmetall im Landhaus-Stil

Instructions No. 989

Whether in the living room, corridor or terrace, this Wind light-ensemble will inspire you. The four clay pots are wonderfully romantically decorated and find an ideal base on this wooden shelf. With small squiggles and tendrils, these pastel-coloured lights are a real highlight. As a special detail the inside of the lights is Leaf metal lined with and lets the soft light shine wonderfully.
