Floristic bowl with building kit

Instructions No. 3576

Difficulty: Beginner

Working time: 3 Hours

In hectic everyday life, small oases of peace are worth gold . With this DIY-Project turns a simple wooden tray into an atmospheric feel-good decoration with color, natural accents and candlelight.

1. **Painting the plug-in motifs**

Start by selecting your desired plug-in motifs. These consist of different shapes that will later be inserted into a holder. Paint them with bright craft paints that match the rest of your decorations. Make sure the paint is applied evenly to create a harmonious result. Whether bold colors or soft pastel shades. Allow the motifs to dry well afterwards.

2. **Putting the motifs together**

As soon as the paint is completely dry, carefully assemble the individual parts of the pegboard motifs. If they are not stable enough, you can fix them with a little hot glue. This will ensure that the motifs stand securely later on.

3. **Positioning the motifs**
Now place the finished motifs in the fixtures provided on the wooden tray. Make sure they are firmly in place and, if necessary, secure them with a small drop of hot glue for extra stability.

4. **Add decorative accents**
Now your wooden bowl tray will take on its natural charm. Scatter Iceland moss, birch twigs and dried field widow flower blossoms between the stick-on motifs. The natural materials give the arrangement a fresh, organic touch and make the colors look particularly beautiful.

5. **Conjure up candlelight**
Fill two tealight jars with fine candle sand to hold the candles securely in place. Place the glasses on the tray and enjoy the atmospheric light that creates a cozy atmosphere. Now you're done!

Ready for your next DIY-Project? Everything you need is waiting for you in our online store: stick-on motifs, craft paints, Iceland moss and more. Get creative and design your own individual decorative highlight!
