acrylic balls with plug-in motifs

Instructions No. 2042

Difficulty: Beginner

Working time: 2 Hours

In this tutorial we will show you how you can easily create impressive **Christmas balls**. With the matching **plug-in motifs** and a little snow, simple Acrylic balls balls become fascinating decorative balls. Also nice to give away!

This is how the Christmas baubles are made:

First take the **wooden stick motives** and paint or spray them in the desired colours. Brush the edges with the Embossing-Dual-Pen**,** sprinkle them with embossing powder **and** melt the powder with the Embossing Dryer

After drying, stick the **wooden motifs** together. Fill half of the wooden motifs with a Acrylic ball little snow and place them. Fill the other half of the Acrylic ball also with snow and press the ball together and close it. Shake the ball so Acrylic ball, that the snow is better distributed

Finally, attach a Ribbon hanger.
