Shell crown

Instructions No. 1805

Difficulty: Beginner

Working time: 1 hour

Whether for the theme party, for the next festival or as a surprise for mermaid fans - this maritime crown makes something special on every head. With large and small shells, some glitter and pearls, this hair ornament looks especially noble.

And so it goes:

In order to be able to work on the crown easily, it is recommended to adjust the hair band to a larger **Polystyrene ball** and then stick it onto a cup or **Terracotta pot** to put. Start now with small **Polystyrene balls** with a **Polystyrene cutter** to cut into slices. These form the basic structure for the shell crown. Glue the polystyrene slices **to the** hair band with a little **hot glue**. Now glue the **mussels** bit by bit to the Polystyrene balls hair band. You can easily **fill up** the spaces between them with the beads. Of course, you can also glue other decorative elements to the crown as you wish. Optionally you can **spray** the crown with some spray glue and sprinkle it with glitter

The mermaid theme doesn't suit you? Such a crown can be just as well combined with **artificial flowers,** plants or **Feathers** design. Likewise a hair band can be integrated into a carnival costume, e.g. as a feeler, for animal ears or as a crown.

Must Have

Hairband, 2 pieces

Content: 2 pieces
Length: 35 cm
Width: 12 mm
Material: Plastic
