Travel voucher with wooden pin motif

Instructions No. 3049

Difficulty: Beginner

Working time: 3 Hours

With these instructions, you can unleash your creativity and design a personalised and unique gift voucher that will inspire a sense of adventure. Whether you want to give the **gift** of a trip or are simply looking for a personalised way to express your appreciation - this **DIY idea** will make hearts beat faster.

It's as simple as that:

First, paint the wooden pegboard motif with the colors of your choice. Use the handicraft glue to glue the two stick-on motifs into the strip.

Use hot glue to attach the chain of light to the plug-in motifs. Place the lights along the contours of the motif to create a sparkling effect.

Now decorate the mini bottle as you wish and attach the decorated bottle to the wooden strip using hot glue. Place it in a position that complements the overall look of the decoration. Now insert the memo holder into the bottle. This will allow you to place your voucher envelope later.
For the "beach look", generously apply handicraft glue to the entire surface of the wooden strip and sprinkle the sand evenly over the still damp handicraft glue.

Have fun giving the gift!
