Advent Calendar Cardboard Cone

Instructions No. 2288

Difficulty: Beginner

Working time: 7 Hours

Give this great advent calendar as a gift. Filled with treats and small gifts, an exciting Advent season is guaranteed.

How to make the Advent calendar:

1. Tear the green and white Décopatch paper into small pieces and stick them to the cardboard cones with Paperpatch glue. To do this, first apply a layer of glue to the cardboard cone, then place the Décopatch paper on top and spread the Paperpatch glue over it again

2. Stick the red Décopatch paper onto the bark discs and some stars as described above. When dry, cut off any excess paper.

3. Using a Pearl Pen, mark the stars with numbers from 1 to 24. When dry, stick them onto the bark discs with a little Paperpatch glue.

4. Wrap the jute ribbon around the cardboard cones, also with Paperpatch glue.

5. Stick the bark discs with the stars onto the jute tape with Paperpatch glue. Attach more stars to the cones as desired.

6. Now you can fill the Advent calendar with small gifts and treats.

Must Have
