Advent-tealight holders made of wood

Instructions No. 1026

Difficulty: Beginner

These Tealight holders interpret the classic Advent wreath in a completely new way
In the traditional Red-Gold-Silver design and the curved fonts and numbers, classical elements are taken up and newly implemented.
You can arrange and decorate the cubes individually or together. Combine them with natural elements like Fir and some decorative snow and immerse yourself in the wonderful Advent season.

And it's as simple as that:

Prime the cubes with the Paint sponge in im red and let them dry
Print out the template for the font
Transfer the templates to the cubes with the carbon paper
Colour in the writing with the pencil and emphasise the edges of the cubes with the silver marker
Then fix the serrated tape on the tealight holders with the help of the tape.

You can also write on the cubes and add greetings

These can be transformed so perfectly to small gifts. We have a special VBS XXL Set laced. You find the article number in the material list.
