Anleitung: Adventskalender Häuschen zum Aufhängen

Instructions No. 1272

The cute little wooden houses are perfect for a great **Advent Calendar**. They are already glued and can be easily opened and filled at the roof. These **instructions** explain how easy it is to paint the houses.

And it's as simple as that:

Which craft materials do I need for this decoration idea Advent Calendar cottages?
Since the VBS Trailer "little house" already with hanging tape are delivered, you need only still Advent Calendar numbers, Handicraft paint, painter tape for masking as well as sponges and brushes for painting.

How do I paint the little houses?
The little houses can be painted according to your own taste. For the reworking of the decoration idea, all houses are first primed with antique white Handicraft paint , i.e. the roof is painted in red colour
After drying, adhesive strips (crepe tape or painter's tape) are pulled over the house walls. These delimit the different colour fields excellently. The spaces in between can now be carefully painted with a contrast colour using a painting sponge.
While the paint dries on the trailer houses, the Advent Calendar numbers can be designed with Christmas or cheerful colour patterns. Finally, the numbers are glued to the houses with hot glue.

Must Have
