

Anleitung: Deko-Schild „Rose Cottage“

Instructions No. 1219

Decoration sign "Rose Cottage" brings the romantic cottage design to your home. Soft, pastel shades, floral motifs and the typical vintage look make the Cottage design. In this guide we show you how to bring a wooden pallet with chalky colour and Napkins into your cottage design..

And it's as easy as that:

Which materials do I need for the creation of the decorative sign?

To design the decorative sign you need the VBS Decorative wooden panel with suspension, Napkin "Paris Rose Garden", VBS Chalky Color in Vanilla and pastel pink, VBS Chalky Wax, VBS Hobby Color in Olive, carbonless copy paper and Sandpaper. In addition, scissors, a brush, a pencil and Paint sponge are required

How do I design the decorative sign?

First, the decorative wooden plate is primed with Chalky Color pastel pink and after drying, the Chalky Wax is applied with a soft cloth. Then apply Chalky Color Vanilla to the wax layer and let it dry. Now partially remove the colour with Sandpaper on the surfaces and edges and clean the wooden board after sanding. Now cut out the required motifs from Napkin and stick the printed paper layer with Napkin varnish on the desired place. Finally, transfer the text template with the help of carbonless copy paper and colour it in with Hobby Color in olive.

Tip: An additional layer of varnish protects the sign from the weather
