Anleitung für das Basteln einer Osterei-Etagere mit Serviettentechnik

Instructions No. 1072

Treat yourself to an extraordinary Easter decoration. The beautiful eggs-Etagere is not only a real eye-catcher, it can also be filled with real boiled Easter eggs for Easter breakfast.

And it's that easy:

How do I create the Easter Etagere?

The Etagere consists of untreated MDF wood. This is primed in white
Bow and base of the Etagere are painted in Yellow-Orange
Cut out now the many small motives from your Easter napkin. Take something Napkin varnish on the brush, position first the individual elements on Etagere and then paint over them with the varnish.
The coloured painted bow and the base can now be dabbed with white dots. With the help of double-sided Adhesive tape it is very easy to remove the outer edges of the Etagere to decorate with serrated tape.

Suitable Easter eggs for the Etagere

Get some eggs ready to be made. Prime these only half in cheerful colors (here: Yellow, Red, Orange and green), then put white spots of colour on the eggs. Once the eggs are dry, use the double-sided adhesive tape to decorate a serrated strand around the egg.
