Anleitung: Kleine Schubladenkommode im Landhausstil

Instructions No. 855

This **chest of drawers in romantic country house style** is just perfect for your little treasures. Lovingly decorated, it is guaranteed to quickly find a permanent place in your home.

And this is how it works:

Pull the drawers out of the chest of drawers and moisten one. Use it to prime the chest of drawers, the drawers and the aluminium sheet with VBS Hobby Color in beige

Then apply the colours Grey Brown and Brown in wiping technique to the prominent areas of the chest of drawers. While this is drying, cut out the desired motifs with the silhouette scissors. Napkin.

Now glue Napkin varnish the motifs for the sides on stamping foil. Use the special Napkins- brush. It minimizes the risk of creases and cracks in the motif.

When the chest of drawers is dry, coat the handles with a thin layer of varnish, then apply the motifs and seal with varnish. You will get the heart-shaped handles when the varnish is dry. Then you simply have to carefully retighten the shape with only a scalpel.

Place the embossing foil on the special mat and emboss the outlines of the motif with the motif facing upwards. Then turn the foil over and emboss the areas between the outlines to create the curvature.
Now cut the motives of the sides and fix them with the glue on the chest of drawers
Now you can present your new living accessory and fill it with your treasures.
