

Anleitung: Magnetschmetterlinge für die Pinwand

Instructions No. 1396

🔪🔪🔪 Difficulty: Beginner

🕒 Working time: 10 Minutes

The pastel coloured butterflies do not look only enchanting. Equipped with a magnet, you can keep everything important on your note board.

Here's how it's done

Choose craft paper of your choice. For each butterfly you need two differently coloured papers that harmonise together. For pastel-coloured butterflies Motif paper in soft colours is particularly suitable.

Transfer the butterfly shapes from the design template to Paper. Each butterfly consists of a large shape and small filigree wings. Cut out both shapes and glue them together.

Take a clothespin for each butterfly and tie a delicate narrow organza bow in a matching colour around the clip. Fix the bow additionally with a small Pin.

Slide the pair of wings into the clip and fix it with Handicraft glue. Finally, stick small magnets under the butterfly - and your note holders are ready!
