Anleitung: Metall-Deko im Farbtrend Rot-Creme

Instructions No. 1135

Taking part in a colour trend is one thing: if the colours are not suitable for everyday use, the decoration is not an evergreen. But with Red-Creame you are never wrong. Here we show you how you can decorate some decoration articles simply with Napkin technique and a few bows lovingly and beautifully.

And it's that simple:

How do I proceed to decorate the decoration-Article ?

For the planter, the tray and the wall tea light holder cut out the corresponding motif from the Napkins . Take only the uppermost thin layer of the Napkin and stick on this carefully with Napkin varnish .

Thread the Red-dotted and chequered ribbons through the openings and finish each with a nicely tied bow

For the wind and tea light, take some red lace and stick it with self-adhesive Adhesive tape around the heart

opening or the edge

The carafe is also covered with self-adhesive tape and white Lace ribbon . Put a pretty bow at the neck and your everyday decorative items are decorated in beautiful colours.
