

Anleitung: Oster-Geschenkverpackung in Ei-Form

Instructions No. 1117

A creative idea for your Easter surprise: the gift box "egg" in a spring-like design. Hide little gifts in the egg and make others happy at Easter. The eggs are also suitable for decorative purposes and are a great hiding place for the Easter bunny.

And it's as simple as that:

The Easter egg packaging should be primed light-coloured in the first step. Use our Hobby Color paint in white or antique white and let the paint dry. For a great colour effect, a wiping technique with brush or sponge is recommended

After drying, glue on Straw silk paper with Napkin varnish . The Straw silk paper is torn into small pieces for this and can be fixed on the egg with a brush and some paint

Cut out the Felt from the enclosed template and stick it on the egg. For the further decoration you stick Lace ribbon on the egg. For this purpose, you can stick-Ribbon along the middle of the egg and then press the tip onto the tape

For the butterfly Straw silk paper was glued on photo cardboard, stamped and cut out. The butterfly is then joined together with a small wooden butterfly. The butterflies and the teeth of the egg are additionally accentuated with a stamp

The label is also emphasized with a stamp. The butterfly is glued on the label. A nice Satin ribbon was threaded through the openings of the wooden butterfly and tied to a bow and glued to the paper butterfly

Glue the butterfly pendant on the upper half of the egg and stick flowers and wooden scattered flowers on the lower half of the egg. A decorative egg is ready to give away!
