Are you looking for an **autumnal decoration idea** for your home? Turn a tray into an autumnal mini-garden with trolley!

First the **tray** is primed **with** antique white , **the** ladder trolley with the colour Mauve. For the decoration example of this idea Chalky Outdoor Color in antique white was used. For indoor use, however, it is quite sufficient to use a normal Handicraft paint like VBS Hobby Color to use. As soon as the paint has dried, simply **Ink Pads** wiped over the edges of the tray and trolley.

The car is lined with moss. So that it cannot be seen, it is covered with moss.**Autumn flowers** are put into the Flower arrangement foam of the ladder wagon, a great floristic arrangement is created.

Before decorating further , it is recommended to arrange the trolley together with moss stones roughly on the tray floor and thus plan **the mini garden**.

Stick small stones, moss stones and small berries on the tray bottom. The areas that should be completely covered with little stones, simply **apply** sequin glue beforehand. This transparent glue has the advantage that the stones can still move easily and can therefore be positioned better. With hot glue you can also place the ladder trolley in the "mini garden" and glue it on.

To finish off, use double-sided Adhesive tape to draw narrow Satin ribbon as **a decorative strip** around the edge of the tray and decorate it with small flowers or other accessories.
