Beaded flowers tutorial: First messengers of spring are here!

Instructions No. 239

Difficulty: Advanced

Working time: 45 Minutes

Pearl threading is highly topical and trendy, always and at any time of the year. Caution - there is an acute danger of addiction!

And this is how it is done:

For the Pearl Flowers, wire stars are not used for Christmas stars but are bent into fascinating flowers. From two wire stars a snowdrop is created. The beads are first put on the wire star. Then the wire ends are formed into eyelets with the help of round pliers. Now two eyelets are hooked into each other and hooked into each other. After the eyelets have been closed, the beads are secured and a "petal" is created.

In this way, the wire stars and rocaille beads are gradually transformed into beautiful calyxes reminiscent of snowdrops.

Must Have

VBS Wire forms "Star", Ø 5 cm

Content: 3 pieces
Diameter (outside): 5 cm
Thickness: 0.8 mm
Material: Metal
