

Bilderrahmen "Natur"

Instructions No. 713

Difficulty: Beginner 🍴🍴🍴🍴

Working time: 15 Minutes

These two decorative bowls are hung on the wall. They are filled **with natural cinnamon Wooden discs, sticks, cones and much more**. The bouillon effect wire sets glittering accents.

Here's [how it works](#)

For this idea we used two decorative bowls. In both, arrange orange slices, bark slices and tree bark in the bowls according to your personal taste and fix them with hot glue. Fir cones, natural decorative balls such as cork beads, small bundles of brushwood and natural bast are further decorative materials for this handicraft idea.

In our decoration example, the bark slices, the orange slices and the tree bark were glued in, stacked on top of each other. To make the picture ensemble look exciting, one bowl is glued with short cinnamon sticks, the second with long cinnamon sticks. The long cinnamon sticks are bundled with natural bast.

Wrap individual orange slices and strands of natural bast with bouillon effect wire, form small balls from the wire and stick them on the bowls. Finally, attach picture eyelets on the back of the bowls for hanging.
