

Birdhouses with embossed napkin motifs

Instructions No. 3575

Difficulty: Beginner 🍴🍴🍴🍴

Working time: 3 Hours 30 Minutes

Would you like to creatively embellish your garden or patio? Design birdhouses with napkin technique and embossing technique. With these instructions, you can create an enchanting arrangement of birdhouses and a painted tray. napkins and embossing technique give the decoration a unique, handmade charm.

Step 1: Primer First paint the tray, the decorative birdhouses and a sheet of embossing foil with white handcraft paint and leave to dry. This light-colored primer ensures that the other layers of paint and patterns applied are shown to their best advantage. **Step 2: Apply napkin technique to embossing foil** Once the handcraft paint has dried, apply a thin coat of napkin varnish. to the embossing foil. napkin technique allows you to transfer fine patterns and designs to different surfaces. Take the top, printed layer of a napkin and place it on the embossing foil treated with varnish. Coat the applied napkin motif again with a thin layer of napkin varnish. This fixes and seals the napkin layer to hold it in place. Allow everything to dry thoroughly. **Step 3: Model the embossing foil** Turn the embossing foil onto the VBS Special mat (or a similarly soft surface) with the treated side facing down. You can

now gently emboss patterns and structures into the back of the embossing foil using embossing pens. This embossing technique gives the design a fascinating feel and depth.

Step 4: Cutting out and attaching the motifs Cut out the embossed foil motif carefully. To attach it to the decorative birdhouses, apply handicraft glue. to the edges of the motif, place it in the desired position on a birdhouse and press it on lightly. You can attach other motifs from napkin directly to the birdhouses without embossing foil.

Step 5: Add color accents Paint the roofs of the birdhouses with different craft colors of your choice to give the decoration additional vibrancy and your personal style.

Step 6: Arrange the table decoration Lay out the tray decoratively with Iceland moss, which forms a natural base. Place the decorated birdhouses on top. Trim the cherry blossom branch with a side cutter and place it artfully on the tray, finishing by attaching small decorative birds to the cherry blossom branch with hot glue. These cute details give the entire decoration a perfect charm
