But this idea is too good to withhold from you. We would be happy to continue to present it to you - let yourself be inspired!

Here's how it works:

Prime the house white, the roof alternately with brown and honey yellow **Handicraft paint** glaze. For this, dilute the paint with water so that the wood structure is still visible. Cut the Napkin roughly to size. Remove the two unprinted layers of paper and glue the printed layer with Napkin varnish onto the white primed surfaces

Tip: For the tapered gable, tear out individual motifs from the Napkin and stick them on.

Seal all glued surfaces again with Napkin varnish . After drying, cut back the remaining Paper with a scalpel and also cut the entrance hole freely. Glue single flowers on aluminium sheet and cut them out. Bend the decorative aluminium wire to form flower stems with leaves, glue one end behind a flower with hot glue, fix the other end to the bird house. Wrap a long wire around the perch and fix a flower here as well, then bend a wire into loops and stick it together with the caterpillar on the roof.

Which colour is especially optimal for outdoor decorations?

Exterior decorations need a special paint or protection to ensure that you will enjoy your object for a long time. Outdoor Color paint is an environmentally friendly weatherproof outdoor paint. Semi-transparent Wood stain and wood varnish is also saliva resistant.
