Working time: 1 hour

This **card** will delight a loved one. Conjure up a **beautiful flower** with beautiful, different papers. The matching lines will make your recipient's heart beat faster.

This is how you design the card:

1. From the **kraft paper** cut out a square shape. In our example: 11.5 × 11.5 cm.
2. Stick over it with double-sided adhesive tape **vellum paper** in the same size (11.5 × 11.5 cm) over it.
3. Then stick this square with the vellum paper onto the center of the card using four 3D pads at each corner.
4. Then punch out hearts from the kraft paper of your choice using the **heart punch** and draw on and cut out smaller hearts.
5. Fold all the hearts in half, arrange them to form a flower and stick them to one half of the heart using double-sided adhesive tape . Decorate with the small hearts.
6. Now stick a shiny **half pearl** in the middle of the flower using double-sided adhesive tape .
7. Finally, label or stamp white Paper as desired. Here we have opted for "love you". Cut this out and stick it anywhere you like using adhesive tape .
