

Chip boxes with Décopatch technique

Instructions No. 218

Décopatch in its most beautiful form - simply perfect for the design of these large chip boxes.

The flat glued-on Paper lid is particularly effective due to its simple design. The sumptuous fabric roses are the highlight.

Simple chip boxes become rosy eye-catchers with the help of Décopatch

In the first step, the chip boxes and lids are primed ivory and left to dry. The Décopatch-Paper is cut in half lengthwise, the chip boxes are coated with patch adhesive and the Décopatch papers are glued on flat or painted with a brush. After the Paper applied on the box is dry, another layer of patch varnish is applied as a sealant. As soon as everything has dried well, the protruding paper edges can be cut from the edges of the chip boxes with a scalpel.

On a damp Paint sponge take some old pink Handicraft paint and wipe it over the lid. This creates a great wiping look, the box gets that "certain something". wipe Handicraft paint with a Paint sponge on the lid, let it dry

A narrow Lace ribbon is glued around the lids with double-sided Adhesive tape, a wide glued Lace ribbon decorates the lid. Rose blossoms and leaves are arranged on the lid to a great look and fixed with hot glue

Finally, the boxes should be lined inside with Silk paper. Gifts or small objects stored in the boxes will then have a higher value.

Tips & tricks

Remove protruding pieces of paper

It doesn't matter at all if Décopatch Paper stands over the edges when gluing a box. After drying, these protruding snippets can be removed wonderfully: With a sharp scalpel they are simply cut off, the edge looks so clean.

Indispensable: **Double-sided Adhesive tape** - with the help of the adhesive tape, decoration tapes can be fixed cleanly and easily.
