Christmas bag

Instructions No. 2938

Difficulty: Beginner

Working time: 2 Hours

Add a personal touch to your gifts this festive Christmas by printing cotton bags with napkin technique! Creatively designing these individual bags not only adds a unique charm to your gifts, but also allows you to give your loved ones a handmade treat.

Start by cutting or tearing the desired motif from the napkin cut or tear it out. You will need the top layer of printed paper for napkin technique only . Therefore, remove the bottom layers Paper.

To prevent the napkin varnish from pushing through the fabric of the bag, place a protective VBS handicraft mat into the bag as protection. Apply a generous amount of napkin varnish for textiles to the area of the bag that you want to design with the napkin . Place the napkin motif on top and coat it again with the napkin varnish. The napkin varnish is protective varnish and adhesive in one and will become transparent while your creation dries.

If you want additional lettering on the bag, sketch it out with the sublimation pen and then trace it with the Posca marker .

To fix everything in place, simply iron the bag from the wrong side for about 5 minutes. The finished textiles can be washed at up to 30 °C on a gentle cycle.

Finish your work by labeling a gift tag and attaching it to the cotton bag with a cord and clip.
