Instructions No. 2909

🔪🔪🔪 Difficulty: Beginner

🕒 Working time: 2 Hours

Individual candle design and napkin technique, they harmonise perfectly! These Christmas candles with decorative nutcrackers are a good example of how easy it is to decorate candles with napkins.

Choose designs for your candles from the napkin and cut them out. Remove the bottom layers of paper from the cut-out designs so that only the top printed layer of the napkin is left in front of you.

Coat the candle with candle potch, place the napkin motif flat on top and coat this too with candle potch using a brush. By using candle potch to decorate your candles, you ensure that the candle burns safely.

Have fun designing candles!
