Weihnachtliche Quilling-Sterne basteln: Einfache Anleitung für festliche Dekorationen

Preparing and cutting materials to size

To get started, take your Quilling strips. For the larger squares, cut the strips in half, while for the smaller squares, cut the strips into quarters. Cut the strips evenly to create a harmonious overall look later.

Shape the squares

Now it's time to shape the checks. Glue the ends of the cut Quilling strips so that you have closed rings. Then fold these rings into squares by carefully pressing the sides inwards. Glue two sides of each square

together to create the typical diamond or chequered pattern.

Create stars

Next, punch out stars from sturdy paper or card. These serve as a centrepiece and give your quilling stars stability and a beautiful shape. Glue the punched-out star in the centre of your quilling check design.

Attach the loop

To loop your finished stars, all you need is a piece of pearl yarn. Tie the yarn to one of the laces of your stars so that you can easily attach them to the Christmas tree, window or door.

Finish

And now your unique quilling stars are ready! They radiate a special elegance and are perfect as handmade decorations for the festive season.
