Decorative ring in wooden stand with dried flowers

Instructions No. 2434

Difficulty: Beginner

Working time: 2 Hours

Create a wooden stand to match the dried flowers trend where you decoratively combine a decorative ring with the trend. As the icing on the cake, you can also customise your wooden stand with a decorative ring with a card including the handlettering technique.

First take the jute and the taffeta ribbon so that you can knot them to the metal ring. Here you can tie and arrange the ribbons individually. The decorative ring can then be inserted into the wooden stand. When the decorative ring is firmly in place, you can next shorten the desired dried flowers accordingly and insert them into the existing holes.

Next, you can write on the kraft paper as you wish. Here, the handlettering technique is suitable for great results.

The card can now also be inserted into the wooden stand.

Finally, for the finishing touch, you can paint the scatter pieces with the desired craft colour and then stick them to the ring with hot glue and to the kraft paper with craft glue.

Must Have

Wooden stand for dried flowers and decorative ring

Length: 15 cm
Width: 4 cm
Height: 4 cm
