Designing a christmas crib with decorations

Paint the base plate and the wooden beams of the **christmas crib** with white **craft paint**. Glue the **chain of lights** to the lower edge of the roof. Decorate the roof with some **moss**.

Line the base plate with **wood wool** and glue the figures onto the plate as you wish. Add the other **figures** and **decorative items** as you wish.

You can add more and more miniatures as you wish and redesign the christmas crib again and again. If you don't glue the figures on, children can also act out the Christmas story with the christmas crib.
