

# Design a fairy jar

Instructions No. 2988

Difficulty: Beginner

Working time: 4 Hours

Immerse yourself in the fairytale world of fairies as you conjure up enchanting motifs such as flowers and dreamy scenes on a preserving jar with this craft idea. Be inspired by the magic of fairies and create a unique, enchanted work of art.

Cut the "Hydrangea fragrance" motif straw floss to fit the storage jar. Then fix it in place with the "Glass & porcelain" napkin varnish. Tie a bow around the jar and embellish it with a lavender pick.

Then start by sticking moss on the lid. Use the "leaves" cord to create a suspension. Tie one end around the lid and knot the remaining long end on the opposite side of the cord.

For the next steps, cut out the motifs from the "Enchanting cards" motif straw floss and attach them to the embossing foil using the patch adhesive. Use the tweezers scissors to cut out everything in a filigree manner. Then emphasise the details with the embossing pens.

The cut-out motifs, such as butterflies and a fairy, are now glued to the moss. You can attach a bamboo skewer to the back to hold the fairy in place. Finish the lid by adding more lavender picks.
