

# DIY Aviary Don't touch

Instructions No. 2452

Difficulty: Beginner 🍃🍃🍃🍃

Working time: 3 Hours

This DIY aviary is a brilliant trend idea in urban jungle style. It combines the two craft techniques napkin technique and metal pressing. Learn how it works here!

## Urban Jungle made by yourself

First, prime the **embossing foil** with white **craft paint**. Pull the lower unprinted paper layers off the napkin, coat the metal foil with napkin varnish and lay the printed napkin motif flat.

Now **cut** out individual sheets. This works best with tweezers scissors. Place them face down on the VBS special mat or a similar soft surface. Use an embossing pen to **model** the leaves into plastic shapes.

Also design the bottom of the aviary with napkin technique: lightly prime, coat with napkin varnish and then apply the napkin motif. Attach the embossed leaves to and inside the aviary with hot glue.

Create some **gift tags**: Caution, Don't touch or your very own messages are easy to apply with stamps and with a fine black pen. Attach these pretty creations to the aviary as well.

Paint the knob of the aviary with gold paint and fill it with potted plants.

## Must Have

[Decorative aviary "Shabby"](#)
