

DIY Voliere Don't touch

Instructions No. 2452

🔪🔪🔪 Difficulty: Beginner

🕒 Working time: 3 Hours

This DIY aviary is a brilliant trend idea in urban jungle style. It combines the two craft techniques napkin technique and metal pressing. Learn how it works here!

Urban Jungle made by yourself

First, prime the **embossing foil** with white **craft paint**. Pull the lower unprinted paper layers off the napkin, coat the metal foil with napkin varnish and lay the printed napkin motif flat.

Now **cut** out individual sheets. This works best with tweezers scissors. Place them face down on the VBS special mat or a similar soft surface. Use an embossing pen to **model** the leaves into plastic shapes.

Also design the bottom of the aviary with napkin technique: lightly prime, coat with napkin varnish and then apply the napkin motif. Attach the embossed leaves to and inside the aviary with hot glue.

Create some **gift tags**: Caution, Don't touch or your very own messages are easy to apply with stamps and with a fine black pen. Attach these pretty creations to the aviary as well.

Paint the knob of the aviary with gold paint and fill it with potted plants.
