Dreamlike winter landscape with house

Instructions No. 2372

Difficulty: Beginner

Working time: 3 Hours

The most beautiful winter landscapes are self-made - use this idea to create your own winter magic. Crafting is fun and you will certainly succeed.

Craft the house

You can get the matching house in our online store as a wooden kit made of veneered plywood. Put the individual parts together, fix the joints with a little craft glue.

The pre-milled contours of the house help you to paint it according to your personal taste with craft paint. For our idea, however, we only applied decorative snow with a fine brush and sprinkled some glitter on the roof in the damp white mass.

Prepare the fences

Paint parts of the fence with glitter paint, other parts with decorative snow or a white craft paint. Let the paint dry.

Snow landscape in the acrylic sphere

The snow landscape, house and accessories are arranged in an acrylic ball in this idea.

First, fix an acrylic sphere half to the wooden ring with craft glue. Cut pieces from the Styrofoam sheet and layer them in the hemisphere to form small "hills".

Now use a spatula and decorative snow to model a snowy landscape on the Styrofoam. This not only provides the great look but will later, after the deco snow has dried, stick your arrangement together like glue.

In the finished, still wet snow landscape you now arrange the house, fences, fir trees, deer or other matching miniatures.

Still missing that certain something? Model more decorative snow until you are satisfied with the look. It's all dried already and you want even more glimmer? Then spray your craft work with adhesive spray and carefully sprinkle on mica.

Arrangement on the table or in the window

Decorate the hemisphere together with other fir trees, with some absorbent cotton and small bells or even cones to a great arrangement. Your new decoration highlight for the winter season is ready!

Must Have

Acrylic ball, Ø 25 cm

Number of parts: 2
Diameter (outside): 25 cm
Material: Acrylic

34,95 €
