Dried Flowers Table Wreath

Instructions No. 2260

Difficulty: Beginner

Working time: 1 hour 30 Minutes

We love dried flowers - not only classically draped in a vase, but also decoratively staged as a wreath for the table. These impressive table wreaths with dried flowers are quick and easy to make. Try it out!

Quick + easy:

1. Paint the polystyrene rings with craft paints. We chose the colours honey yellow and reddish brown. Leave to dry.

2. In the meantime, shorten the dried flowers.

3. Poke small holes in the styrofoam rings with an awl and place the dried flowers there.

4. String wooden balls onto a piece of wire so that it fits around the polystyrene ring. Twist the ends of the wire together and place them around the rings.

5. Place a tea light glass in the middle. DONE!

Must Have

Styrofoam ring full, Ø approx. 10 cm

Width: 3 cm
Diameter (outside): 10 cm
Material: Polystyrene
