Easter bunny mural

Instructions No. 3658

Difficulty: Beginner

Working time: 2 Hours

This lovingly designed decorative sign egg is a real eye-catcher during the Easter period! The bunnies with the LED nose are also suitable as decoration beyond Easter, because with their friendly look they bring a good mood and fresh spring feelings into your home. And the best thing is that you can make this creative idea yourself in no time at all.

Instructions for designing your Easter bunny mural

The basis for the mural is the VBS "Egg" decorative sign. Prime it with a pastel-colored handicraft paint. You can paint on the particularly opaque and easy-to-spread VBS handicraft paint and use a brush or a paint sponge for this.

While the decorative sign is drying, paint the two bunny figures with colors of your choice. Make it easy for yourself and only decorate the Easter bunny egg shell and use a fine brush to add accents to the bunny ears as in our decoration example.

Once the bunnies are dry, you can use a bamboo skewer to print dots on the painted surfaces. This technique is called "dot painting" and gives your craft project a particularly decorative look.

Now glue two pieces of driftwood with VBS handicraft glue to the egg. As soon as the glue is completely dry, it will ensure a stable connection and provide a permanent hold for the driftwood pieces.

Now you can hang up the Easter egg decoration and place the bunnies on the pieces of driftwood.
