🕒 Working time: 45 Minutes

## Easter card with die-cut bunny

Send velvety Easter greetings this year. Use a punching template and velvet paper to create Mr Rabbit, the star of the card. In our example, we decorate the card with pompoms, glue pads and glossy images for a great 3D effect.

### This is how it works:

First design the coloured folding card of your choice as shown with the white cardboard and the VBS silicone stamps.

Then punch out Mr Rabbit from the velvet paper. To do this, place the Bigz punching template and the velvet paper between the transparent plates and run them through the machine. The velvet paper is self-adhesive, so peel off the foil on the back and stick Mr Rabbit onto the card.

Now stick on a pompoms and the vintage glossy images. For the 3D effect, use 3D glue pads.
