

Easter greetings with stamp print

Instructions No. 3025

🔪🔪🔪 Difficulty: Beginner

🕒 Working time: 1 hour 30 Minutes

Would you like to send someone a personalised greeting with a special Easter card?

How about our Easter card with stamp print? You can easily make these yourself. Create a card holder from craft blocks too! Both together make a great gift idea. In our example, we also decorate the card with ribbon and craft paint.

This is how you design the card:

First, glue 3 craft blocks together to form a card holder as shown. If you like, you can paint the craft blocks with our VBS craft paint. In our example, we have only coloured the edges of the blocks.

Then take a double card and stamp it however you like. To stamp, simply place the desired silicone or wooden stamp on a sufficiently large acrylic block and press it into an ink pad until the motif is evenly covered with colour. Now you can stamp the motif.

You can then decorate your card with a pretty ribbon.

Finally, the self-designed cards can be filled with personal words and then placed in the slot of the self-made card holder made from the craft blocks.
