

Easter pendants

Instructions No. 2469

🔪🔪🔪🔪 Difficulty: Beginner

🕒 Working time: 1 hour 30 Minutes

Make cute **pendants** from the **Raysin** casting slip. It is air-hardening, odourless and free of harmful substances. With our casting mould, you can cast great pendants in the shape of bunnies, eggs, flowers and honeycombs. Decorated with beautiful stamps, they are an eye-catcher on an Easter bouquet, as decoration on a gift or as a pendant on a bottle.

This is how the pendants are made:

First mix the **raysin** according to the instructions so that a creamy mass is formed. For colouring, drip **colour concentrate** into the mixed mass as desired and stir the raisin again well. After approx. 30 to 45 minutes, the castings can be removed from the mould. Allow the moulds to dry completely for several hours.

If necessary, paint the castings with **painting primer** and let them dry. The primer prevents paint from seeping into the casting.

Then you can decorate the Easter pendants with **stamps**.

To hang them up, thread black yarn through the hole and knot it.
