Felted illuminated firs

Instructions No. 2318

Difficulty: Advanced

Working time: 8 Hours

These **fir trees** are a hit. They are **easy to felt yourself** and are a lot of fun to make. **Illuminated** with a string of lights, they bring a beautiful atmosphere into your four walls. You can decorate the firs beautifully on a table, dresser or your windowsill and of course arrange them with other winter accessories.

Felt the firs as follows:

Start by **felting** the tip of the fir tree on the **felt mat**. Then felt the tip onto the cone. Completely cover the **Styrofoam cone** with fairy wool and felt it firmly. Repeatedly prick the wool with the felting needle to join it to the cone. If necessary, the styrofoam cone can also be shortened with a cutter knife.

Cut the **round stick** to the desired length and insert it into the **wooden disc**, if necessary fix it with **VBS craft glue**. Then paint with wood stain and leave to dry. Wind a string of **lights** around the fir tree. Glue the battery

compartment under the cone with hot glue. You can carefully felt some fairy tale wool over the fairy lights if necessary. Please do not damage the cables in the process.

Press the polystyrene cones onto the round bars. Paint the **stars** and stick them to the fir trees with hot glue. Knot the **bells** to the tops with perlon tape.

Article information:

Article number	Article name	Qty
659826	VBS Spare needles for dry felting needle, 7 pcs.	1
607605	Perlon thread, 0.25 mm thick, 100 m long	1
