Fruits gift box

Instructions No. 2568

Difficulty: Beginner

Working time: 3 Hours

Give friends and family a very special treat and create a gift box with jewelry in the trendy theme of fruits for your loved ones.

Craft bracelet and chain

Thread the Rocailles and fruit beads as you like on the cotton cord. In our example, we made a bracelet with white rocailles and fruit beads, as well as a necklace in melon look. Then knot the ends of the cord to the lobster clasp. The necklace and bracelet are ready.

DIY gift box

Place the templates on the white photo cardboard and trace them with a pencil. Then cut this out and trace the inside lines with a folding leg. Then fold the box into position and apply some craft glue to the glue tabs to glue

them together.

You can now place individual areas of the box on the VBS scrapbook paper, trace and cut them out. These will now be glued to the box.

Now cut out the banners and tags, stamp them and adhere them to the box with 3D adhesive pads.

Finally, place the jewelry pieces in the box - your jewelry gift is ready!
