Funny snowmen made from wooden discs

Instructions No. 2396

Difficulty: Beginner

Working time: 1 hour

It is very easy to make snowmen out of wooden discs, which can be individually designed. They can be used as pendants, as plugs or as simple decorations for the whole winter season.

The body

Choose two matching wooden discs for each snowman and glue them together with hot glue. You can then create different scarves from the cord, knitted tube and ribbon. Sometimes simply, sometimes wrapped several times or even knotted.

Body parts and accessories

Cut out little noses from the felt and glue them on. You can paint faces around the nose and charcoal on the belly of your snowmen. Once the paint is dry, attach the hats and top hats to the head with hot glue. Cut a long and a short piece of chenille wire. Twist the short piece around the longer one, keeping a little distance from the end. Do this as many times as you need arms for the snowmen and glue them on the back.

Final touches

Depending on whether you want to hang your snowmen or put them in flower pots, you can glue on ribbon or wooden sticks from behind.

Have fun making them.

Must Have

VBS Bark slices mix "Round"

Weight: 250 g
Size: 2.5 - 5.5 cm
Material: Natural material

3,99 € (1 kg = 15,96 €)
