

Glowing wooden stars

Instructions No. 1687

Difficulty: Beginner    

This Christmas DIY light is made within a short time. The decorative stars certainly fit into every home.

Craft idea for impatient people

First use the outer contours of the wooden stars as a template to [cut](#) the star foil. Cut the Lace of the foil stars, remove narrow triangles. Place the film in the stars and use a folding leg or scissors to draw a seam in the film. Before gluing it in, prime the wooden stars with [VBS Chalky Color paint](#) in antique green and Stone Grey.

After drying, the star foil is glued in with double-sided Adhesive tape, into the inside of each star a [Fairy lights](#) fixed. Arrange the stars together with some fir green and Christmas Balls in your home.
