

Herz-Galerie mit Spitze im Landhaus-Stil

Instructions No. 995

The frame gallery with the four hearts can be transformed into this beautiful living accessory with a little lace and colour. Small satin bows continue the romantic design. Depending on the season, you can redesign and decorate the frames again and again.

It's that simple:

Prime the frame in white. When dry, paint the front side with moss green paint, leaving a little space around the edges. Cut the flowers from the lace and place them inside the frame. Make small bows from Satin ribbon and fix them with hot glue on the heart frame.
