Illuminated fir tree trio

Instructions No. 2400

Difficulty: Beginner

Working time: 3 Hours

The pretty wooden fir trees of the VBS craft set "Tannenbaum" are simply painted, put together and decorated. Let our decoration example inspire you for your own crafting fun!

Painting Christmas trees

The plug-in motif is composed of a wooden base, wooden snowflakes of different sizes, a metal rod and connectors. The snowflakes are first painted and the base of the respective fir tree is also colored to match. Then the top of the star is colored with gold paint.

Assemble wooden parts

Once the paint has dried, the fir tree can be put together. For a better hold, the individual connections should be fixed with a little craft glue.

.

Decoration with snow and sprinkles

Decorated with some decorative snow and glued on scatter pieces, the fir trees are almost ready. Finally, the small micro LED lights are decorated on the fir trees and fixed with a little craft glue or hot glue.

As soon as the fairy lights are equipped with button cell batteries, the Christmas tree trio decorated in the home can exude a cozy light.
