Kondolenzkarten basteln

Instructions No. 3264

Difficulty: Beginner

Working time: 45 Minutes

Saying goodbye to loved ones is always difficult. Self-designed condolence cards are one way to show the mourners your special sympathy in a personal way. We have put together some examples of how you can design appealing condolence cards.

Double cards made from kraft paper, white card or black card are the basis for the craft. Choose a silicone stamp with the message you want to convey. Place your stamp on an acrylic block and stamp on white or natural-coloured card first. Remember to clean your stamps with water afterwards to prolong their life and keep a clear stamp image.

The silicone stamps usually also contain matching symbols for the further design of your cards.

Cut out the individual elements in suitable formats or shapes. Arrange them together with other paper cuttings on the cards to create decorative looks and stick everything onto the double cards.

Now all that's missing is the lettering inside the condolence cards.

Lube und Gedanken bleiben für immer. de hatr Immer.
