## Letters in rust look

**Instructions No. 1500** 

Difficulty: Beginner

Working time: 30 Minutes

Give your decoration a very special charm with the Easy Rust effect. In these instructions we show you how to create letters in Rust-look in no time at all.

### New becomes old:

To create the "HOME" decoration you need the Easy Rust paste in the colours Rusty Brown and Rusty Red and the Easy Rust Liquid. Through the combination of the different colour shades, you get the typical Rust-optical effect.

# Step-by-step to the rusty decorations

- 1. With the help of a large brush **or** sponge, apply **the** dark **Rust paste in the** colour shade **Rusty Brown** on the letters in a large area. Allow the paint to dry thoroughly. The drying time can be accelerated by using a **hot air device**
- 2. Now apply a second layer of the Rust paste in the shade Rusty Red and let them dry as well
- 3. To achieve the **typical Rust-look**, put some **Easy Rust Liquid** in a bowl, dab **and wipe** the liquid along the edges. Let everything dry well.

#### **Finish**

For the final finishing touches, attach the **Jute yarn** and the **keys** by means of **double-sided Adhesive tape.**Now your new **rusty look** decoration is perfect!

# Must Have
