With this noble Ribbon you can create a glamorous decoration in a few steps. The Fir and the small Christmas tree balls provide the Christmassy character and also reflect the shine of the tea lights. Individually decorated, combined together and arranged again and again, these glasses offer you an ideal basis for existing and upcoming decorations.

And it's that easy:

Cut off some fir branches and bend them decoratively. Wrap the Decorative ribbons around the glasses and cut it to fit exactly. Then stick the tape on the upper edge of the glasses, pull off the protective foil and fix the Decorative ribbons with the tape-Ribbon on the glass. Arrange the glasses to the fir branches and decorate Fir with the Christmas tree balls, the flower hair and Klaas, Santa Claus.
