# Light Bulbs Light Decoration

#### Instructions No. 1598

Difficulty: Advanced

#### Working time: 45 Minutes

Set the scene for **atmospheric lighting decoration** - with **decorative light bulbs**. Whether in your home or in your garden and terrace, a stylish lighting gives your home a **special atmosphere**.

### Colouring light bulbs

To color some light bulbs, pour yellowish Handicraft paint into a light bulb and then slowly swivel the bulb so that the color spreads well. For the bluish light bulb, repeat this with a blue Handicraft paint. In our example, for the yellowish light bulb we have placed <u>Handicraft paint in Buttercupand for the bluish</u> light bulb Handicraft paint turquoise blue and <u>Ice blue</u> mixed and these also filled in and the pears swivelled.

### Decorate a light chain

For the next step, you will need a 3 mm steel drill bit, which you <u>use</u> to drill larger holes in the sockets for five bulbs. Now you can <u>put</u> 2-3 lights of the light chain into each bulb. Leave the wire between each bulb with a small lamp as a distance. Fix the light chain wire <u>to</u> the sockets with some <u>hot glue</u>. Now you can carefully <u>decorate</u> the bulbs in a glass vase. You can now design the glass vase with Washi Tape as you wish

**Tip:** It is best to hide the battery compartment under the top light bulb as a last step. This way you can reach the switch easily, although the battery compartment is not visible.
