Magnetic board house

Instructions No. 3074

Difficulty: Beginner

Working time: 3 Hours

Would you like to make a **magnetic board**? This board has a very simple design and is extremely practical. You can stick important **notes** or **photos** and postcards on it. So you always have all your **to-do's in** view. You can decorate and design a self-designed magnetic board according to your personal ideas.

How to design the magnetic board

Coat the inside surface of the **wall shelf house**, preferably crosswise, with **magnetic paint** crosswise. Three coats of magnetic paint must be applied to ensure that the magnets hold well later. Allow the paint to dry well between coats. Once all coats have been applied, leave to dry for another 24 hours.

Then paint the house and some **scatter decoration** with **Chalky Color**.

Stick magnets to the back of the scatter decoration with VBS handicraft glue and leave to dry thoroughly.

Tip: You can use the POSCA **marker** the scatter decoration can be labeled. For example with names or initial letters. This makes it easy to assign each appointment to a person or the whole family.

Must Have

VBS Wall shelf "House"

Length: 20 cm
Width: 6 cm
Height: 30.5 cm
Thickness: 0.8 cm
Material: Pine wood
